Liana asked the teacher for ideas.

Top ideas

No technology because of school board roll out plan and the supply is low on chrome books, purchase of chromebooks will come from school board.

1. Gym equipment (new mats)
2. Steam Project above classroom budget, maker space we can be creative.

3. Curriculum My Math Path it is similar to an online textbook, Liana is trying to be part of a pilot program.
4. **Outdoor activities four square is a big one, what is the cost? Are there some companies that make it?**
Outdoor places seem very important to the council does it have to go through purchasing or is branding of school board?
Certain class materials must go through certain businesses because of the board preferred suppliers.

For art supplies we can investigate the Crayola contest to win the supplies.

Questions:

Can we combine parent engagement grant, \$500 with another fundraising?

Are we able to use actual money or does it have to be online? We are now able to handle cash.

We have struggles with raffles because of lottery licence \$150/year paperwork is overwhelming not very clear. We will look at other ways to fundraise.

Magazine fundraiser declined this year as there is a shortage in paper, there was a big delay last year.

Movie night might not encourage parent involvement, can't charge admission but can charge for snacks or by donation.

Possible Game Night with all sorts of games the classes create.

School cash online is a platform board wide and there is a small fee.

Going to work on how to link the fundraisers and post it on the school website.

Fresh Fuel – wraps, ham, turkey, or hummus, includes cheese string, apple bananas. The cost \$4.75 it will help with the kids needs. If we charge \$6 we make a profit

We have agreed on the calendar and a schedule to show parents the fundraising that is upcoming through out the year.
